

Deskings Commons Announcement

Posted: April 2014

We are excited to announce an addition to our property portfolio. Deskings Commons, located in Newberg Oregon is quickly approaching construction completion and is a newly constructed 56-unit affordable workforce housing apartment complex. The park-like setting is situated close to the downtown core of Newberg, close to schools, city library, public parks, city offices, restaurants, shopping, and the local pool and health centers. It is also within walking distance to art galleries, athletic fields, and transportation. The Housing Authority of Yamhill County designed the layout of buildings to compliment the Historic Todd House and extra efforts to preserve the native white oak trees for enjoyment of residents and the surrounding community. Deskings Commons will have 11 one-bedroom, 37 two-bedroom, and 8 three-bedroom apartments. Rents for all units will be income restricted. We are currently accepting applications which are available at the Housing Authority main office located at 135 NE Dunn Place in McMinnville and also can be found on our website at www.hayc.org. Please contact us for any further questions at 503-883-4300 or at deskings@hayc.org.
